RE: Support of Fairbanks North Star Borough application for postponement of the effective date of an order of the United States Postal Service pending review under section 41902 of the Statute.

To whom it may concern,

The purpose of this letter is to support the Fairbanks North Star Borough (FNSB) application for postponement of the effective date of an order of the United States Postal Service pending review under section 41902 of the Statute dated March 6, 2006. This application opposes the implementation of the USPS business plan dated February 28, 2006 to change the current bypass mail delivery system to the Barrow hub by trucking mail from Fairbanks to Prudhoe Bay, then flying it to Barrow.

Pursuant to Section 14 CFR 232.4, I support the Fairbanks North Star Borough's application to postpone the 2/28/06 USPS Business Plan because it will negatively impact my quality of life. My son plays basketball and their team regularly flies out of Barrow to play in tournaments. These tournaments increase his self-confidence and self-esteem, and will ultimately help him succeed in his adult life. The proposed bypass mail changes are expected to reduce jet service to Barrow by 50 percent and increase costs by at least \$100/seat each way. This adds up for the parent trying to send their children to sports tournaments and statewide school events. The proposed changes to bypass mail system will mean that our children will not be able to participate in as many sports tournaments or school activities. This change will unfairly impact opportunities for village youth.

Please do not allow the USPS to alter our bypass mail system by trucking the mail to Prudhoe Bay thereby increasing my already excessively high cost of living.

Sincerely,
Joseph Atiyah

RE: Support of Fairbanks North Star Borough application for postponement of the effective date of an order of the United States Postal Service pending review under section 41902 of the Statute.

To whom it may concern,

The purpose of this letter is to support the Fairbanks North Star Borough (FNSB) application for postponement of the effective date of an order of the United States Postal Service pending review under section 41902 of the Statute dated March 6, 2006. This application opposes the implementation of the USPS business plan dated February 28, 2006 to change the current bypass mail delivery system to the Barrow hub by trucking mail from Fairbanks to Prudhoe Bay, then flying it to Barrow.

Pursuant to Section 14 CFR 232.4, I support the Fairbanks North Star Borough's application to postpone the 2/28/06 USPS Business Plan **because it will negatively impact my quality of life.** As a Barrow resident, I already struggle to survive in an area with one of Alaska's highest costs of living. All of my fresh produce is presently shipped in via bypass mail, and even with that shipping method I pay one of the highest prices in the nation for basic food supplies like bread and milk. I cannot even afford to buy fruit except on special occasions. The proposed changes to the bypass mail will change this in one of two ways. Either I will purchase my bread and milk for the same prices, but they will have taken a minimum of two additional days in transit, been driven on an additional 416 miles of gravel road, and been handled at least one more time in one of the world's most extreme climates. So the quality of the produce will still be expensive and of significantly deteriorated quality. My second choice, if I could afford it, would be to buy the same quality of produce that I can buy at bypass mail prices today, at higher prices reflecting the cost of being shipped by air cargo at a significant increase in cost. Basic nutrition is important to my health and the health of my family. This proposed change is unfair to village residents.

Please do not allow the USPS to alter our bypass mail system by trucking the mail to Prudhoe Bay and thereby increasing my already excessively high cost of living.

Sincerely,

THOMAS HOPSON
